

Risk Control Welcome Kit

Welcome

As your insurance partners, **Beacon Aviation Insurance Services** and **AmTrust** are dedicated to help keep the aviation industry and its employees safe.

Risk Control is people and technology driven. We combine experienced loss control professionals with innovative technology to help you better manage your insurance risks.

We know that having the right safety resources are the keys to a successful business. We aim to make a difference, and our solutions do more than save a company money – they help to save employees' lives. We offer distinct, tailored Risk Control support for the aviation industry. Our overarching goal is to help you identify common hazards that can lead to costly business losses, then connect you with solutions to help prevent or minimize them.

This welcome kit is designed to introduce you to our host of solutions to help you continue to manage your risk.

Thank you for partnering with Beacon Aviation and AmTrust!

Resources

Online Reference Library

Successful Risk Control starts with knowledge. To facilitate learning, we maintain an extensive collection of safety and risk management resources on our website [Beacon Aviation Program Risk Control Resources](#) that you can use to conveniently access relevant material. Resources include:

- Workplace safety topics segmented by various hazard types
- Sample safety programs
- Fleet safety resources
- Hazard Communication
- Severe and seasonal weather risks
- OSHA Information
- And much more

From technical materials to complete sample safety programs, best practices guides and important safety tips, be sure to explore this site for a spectrum of ways to keep people, property and assets safe.

Safety Blog

Our team of Risk Control professionals maintain a regularly updated safety blog to keep you up to date on important alerts, relevant safety topics and provide expert opinions related to workplace safety. Our safety blog is completely searchable with nearly 150 Risk Control related articles to keep your safety program on track.

Access our safety blog here: [Loss Control & Employee Safety Blog | AmTrust Insurance](#).

Education & Training

Workplace safety training is key to minimizing injuries, incidents and controlling costs. As a valued policyholder, you have free access to Risk Control training videos relating to all types of workers' compensation hazards through our partnership with Trainery One.

Trainery One provides you access to valuable safety training sessions. These videos are designed for small or large group training sessions to enhance safety culture and facilitate safety meetings. To access the training library, complete the online form located here:

[Safety Video Access | AmTrust Insurance](#)

After submitting the completed form, you will receive a unique username and password by email that lets you begin training immediately by clicking the link provided in the email. Please allow up to 2 business days to receive your login.

Resources

Discounted Services

Our team of Risk Control professionals have identified and created relationships with organizations who place safety first and are built to strengthen our insureds risk management programs and efforts. The following companies are pleased to offer discounts as a policyholder.

Shoes For Crews

Workplace slip and fall injuries cost employers billions each year in workers compensation and medical costs. To help reduce these costly claims, Shoes For Crews offers protective footwear solutions at a discounted rate.

Resources

Loss Trend Analysis

Identifying trends is crucial to reducing future incidents and claims costs. AmTrust's proprietary loss analysis software offers insight into your losses by providing detailed visual representations and graphical data to spot underlying trends specific to your organization. This data can be used to implement preventative measures to help minimize risk and keep claims costs down.
