## Why Beacon?

Beacon Aviation Insurance doesn't believe in a "one- size fits all" when it comes to insurance and risk management programs.

Beacon focuses solely on the aviation industry. In fact, many of our employees are active or former pilots and aviation professionals. That's why we have curated solutions to meet the unique needs of the aviation industry.

We believe in building meaningful relationships with all our policyholders and providing you with access to the valuable resources necessary to protect your businesses and assets. Below are some highlights:

Backed by the 3<sup>rd</sup> largest Workers' Compensation insurers in the U.S., AmTrust Insurance.

Competitive and comprehensive all states policy and endorsements are available. Flexible rate structure providing competitive, up-front guaranteed-cost premiums. National Dividend Program, for select accounts, with industry leading payout time. Our in-house premium audit manager helps you navigate the Workers' Comp audit process and provides a quality check on all audits to help make this process seamless.

Flexible, interest free, premium payment installment plans, including Pay-As-You- Owe. This helps businesses maximize cash flow

Complimentary access to our comprehensive online risk management library. One-on-one risk management consultation services, provided by our in-house aviation and occupational safety expert, tailored to your business' risks and needs.

We know accidents happen. When they do, we are here to assist you in navigating the process and help you to actively manage claims:

- In-house insurance company adjusters
- 24/7 online and telephonic claims reporting tools
- Nurse Triage and Telemedicine services available
- Online self-help claims resources including find a physician and posting notices
- Specific special handling arrangements for your claims as needed
